

A HOUSE OF STONE

... Slate and Stone Tiles

About A House of Stone ...

A House of Stone supplies a wide range of slate and stone tiles. Their materials are suitable for interior and exterior installations and are designed for use as flooring as well as on walls.

The company's range of products is made up of the highest quality stones from around the world and they sell to trade businesses and directly to members of the public.

A House of Stone has a well stocked showroom on their premises which is open during normal office hours.

The company manufactures and supplies specially developed stone care products for cleaning, sealing, enhancing and maintaining slate, stone and stone like products. Their cleaners and sealers provide superb solutions for the care of their entire range of stone as well as being widely recognized as perfect for treating similar materials available elsewhere.
