

PHOENICIAN ARTS

...Marble Mosaics

About Phoenician Arts

As a third generation company, Phoenician Arts leads the world in its creation of the most innovative marble mosaic design. From its beginnings as a local business focusing on reviving one of the oldest human art form, Phoenician Arts has been at the forefront of the mosaic art industry, characterized by a strong entrepreneurial spirit, an ability to adapt to the evolving market, and a readiness to explore modern concepts and designs.

Phoenician Arts prides itself in creating fully handmade mosaics from all natural marble and semi-precious stones, based on the same techniques used by the Greek, Romans and the Byzantines. Thus, the colour of their tiles remain intact over time, regardless of weather and will last for generations.

The company's workshop is located in the biblical land of Lebanon, known for its rich history of the Phoenician people, the "Cedars of Lebanon" and the presence of the Roman and Ottoman Empires for many generations.
