

ARCHITECT DATABASE

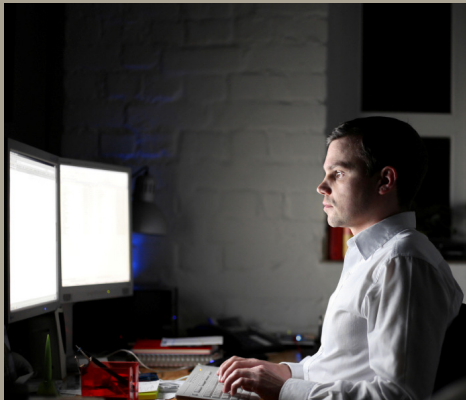

WORLDWIDE - 2012

Technical Library Services

About Our Database

During the past 20 years Technical Library Services has developed and maintained one of the industry's largest databases of international building & design professionals.

Our database includes professional contacts located throughout the English-Speaking world and this database contains a synopsis of our worldwide architectural contacts.

Total number of Worldwide Architects : **85,011**

This report only contains contacts working in general architectural practices specialising in **commercial, ecclesiastical, educational, healthcare, hospitality, industrial, residential and sports facility** projects.

Golf Course, Landscape, Marine & Naval architects are listed under separate databases, as are **architectural technologists/technicians** and **spec writers**.
